

Victorian youth strategy consultation launch

Social media – Stakeholders

Information to support social media activity

Key information for sharing on Facebook, Instagram and Twitter	Hashtags	@mentions
<p>Young people and organisations across the state are being invited to partner with the Victorian Government to shape a new Victorian youth strategy.</p> <p>We are committed to creating a Victoria where all young people are healthy and safe, and empowered to contribute to the issues that affect them.</p> <p>We want every single young person to have equitable access to opportunities and support to participate fully in the social, economic and civic life of our state.</p> <p>That's why we want to hear ideas from a diverse range of young people, as well as organisations, parents/carers and community members.</p> <p>This is the start of an important public conversation. Consultation is open until 14 December 2020.</p> <p>Have your say by completing a short online survey or downloading the youth strategy discussion paper: https://engage.vic.gov.au/victorian-youth-strategy.</p> <p>Or register for an online youth or community forum near you: yacvic.org.au/youth-strategy.</p>	<p>Primary: #youryouthstrategy Secondary: #youthvoice</p>	<p>Victorian Government</p> <p>Minister for Youth, the Hon.
